

BRIGHT TV VIEWERSHIP ANALYTICS

Understanding viewing behaviour and identifying opportunities
to grow BrightTV's subscriber base

SUMMARY

01 Viewing behaviour varies significantly by day

Daily watch hours range from 115 hours on Monday to 296 hours on Saturday.

02 Afternoon and evening are the strongest viewing periods

Afternoon generates 547 watch hours and evening 568 hours, compared with only 87 hours at midnight.

03 Consumption is concentrated in a few content categories

ICC Cricket World Cup 2011 generated 412.1 watch hours, followed by Live Events at 318.5 hours

04 The user base is concentrated geographically and demographically

Gauteng has 1,607 unique subscribers, while Young Adults account for 2,521 subscribers.

Viewing Sessions

1,523

Total Watch Hours

9.1 min

Avg Session Duration

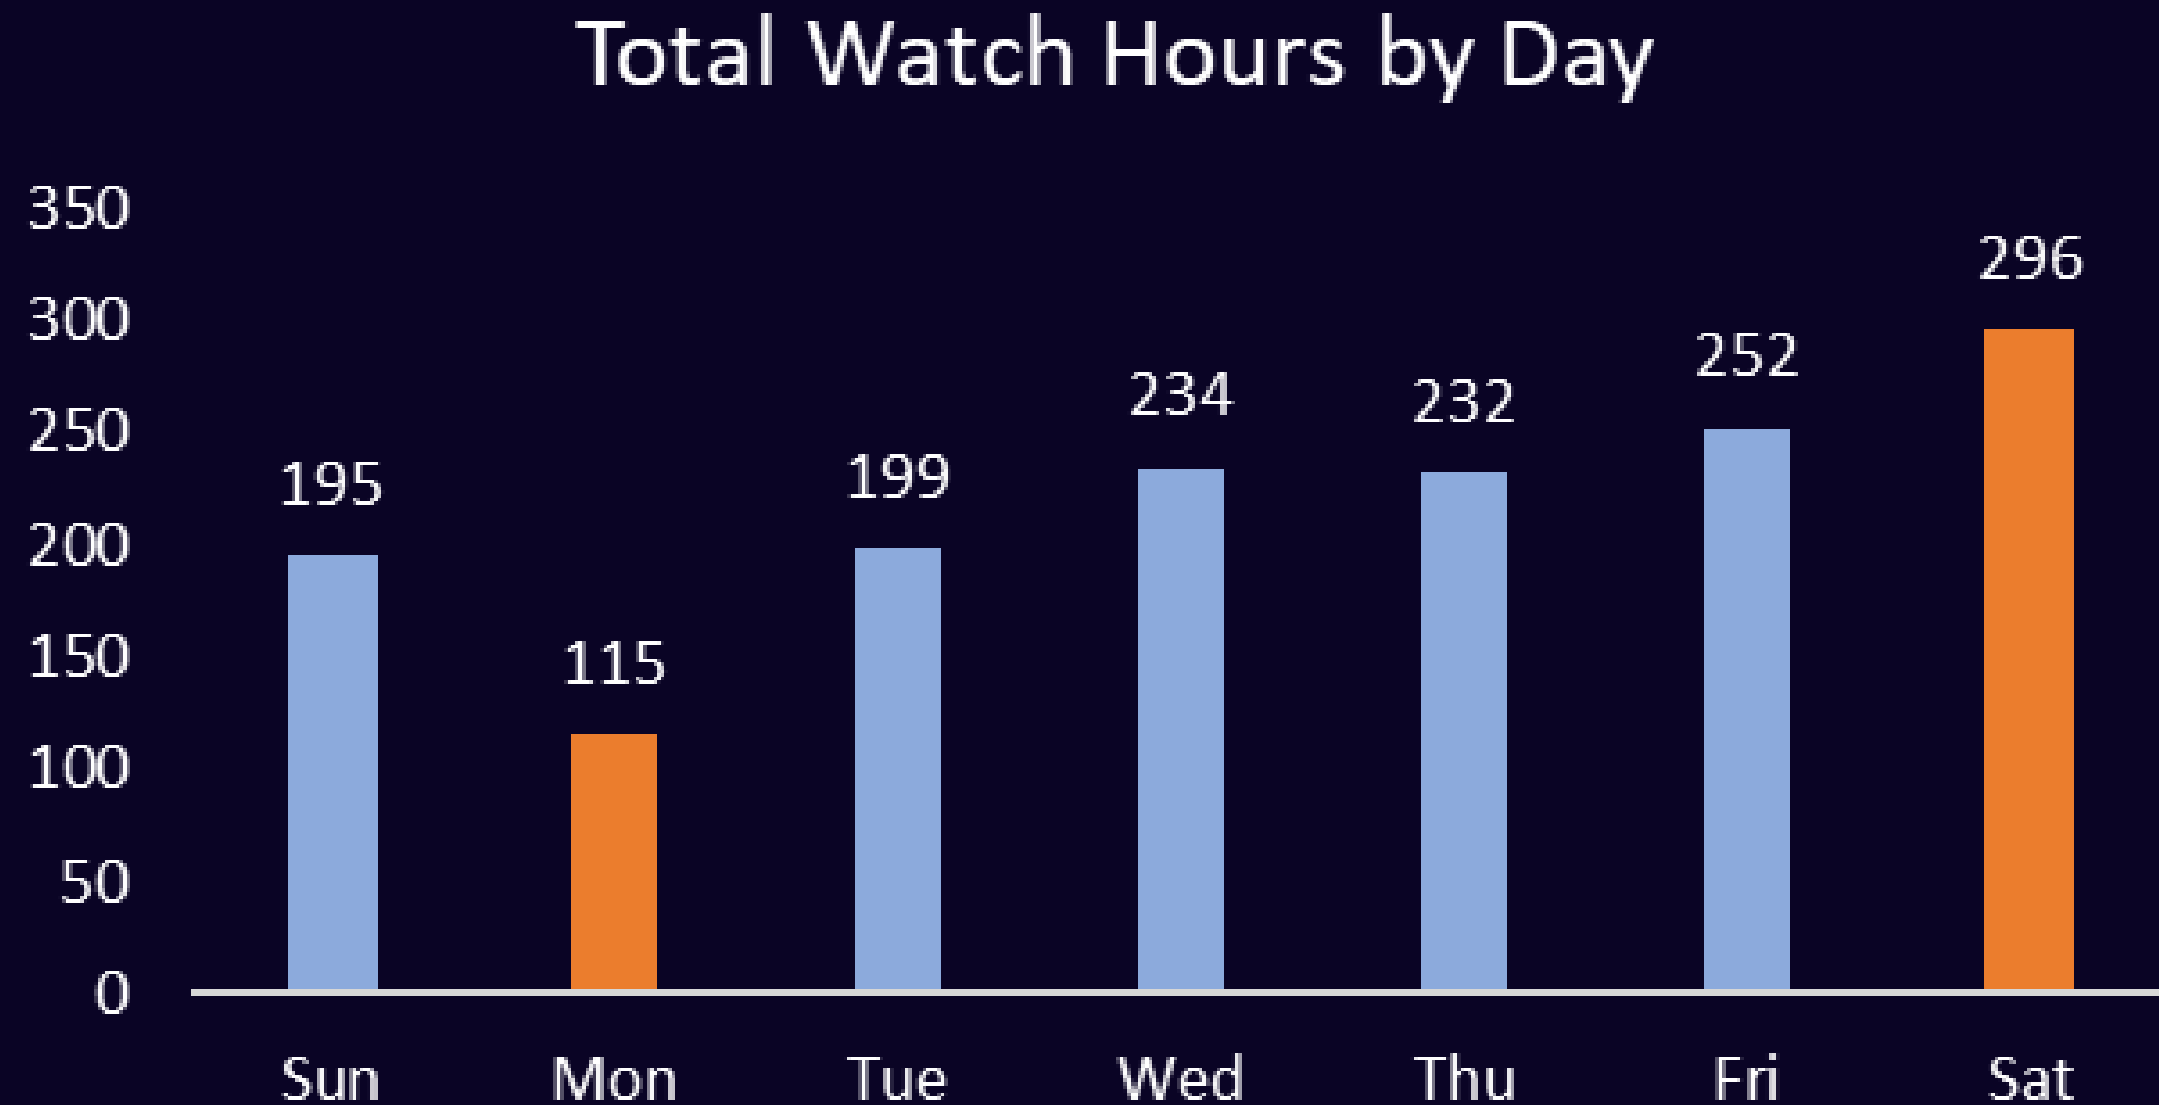

296 hrs

Highest Daily Watch Time

BrightTV recorded 10,000 viewing sessions across 4,386 subscribers, generating 1,523 hours of viewing.

WHEN ARE VIEWERS WATCHING?

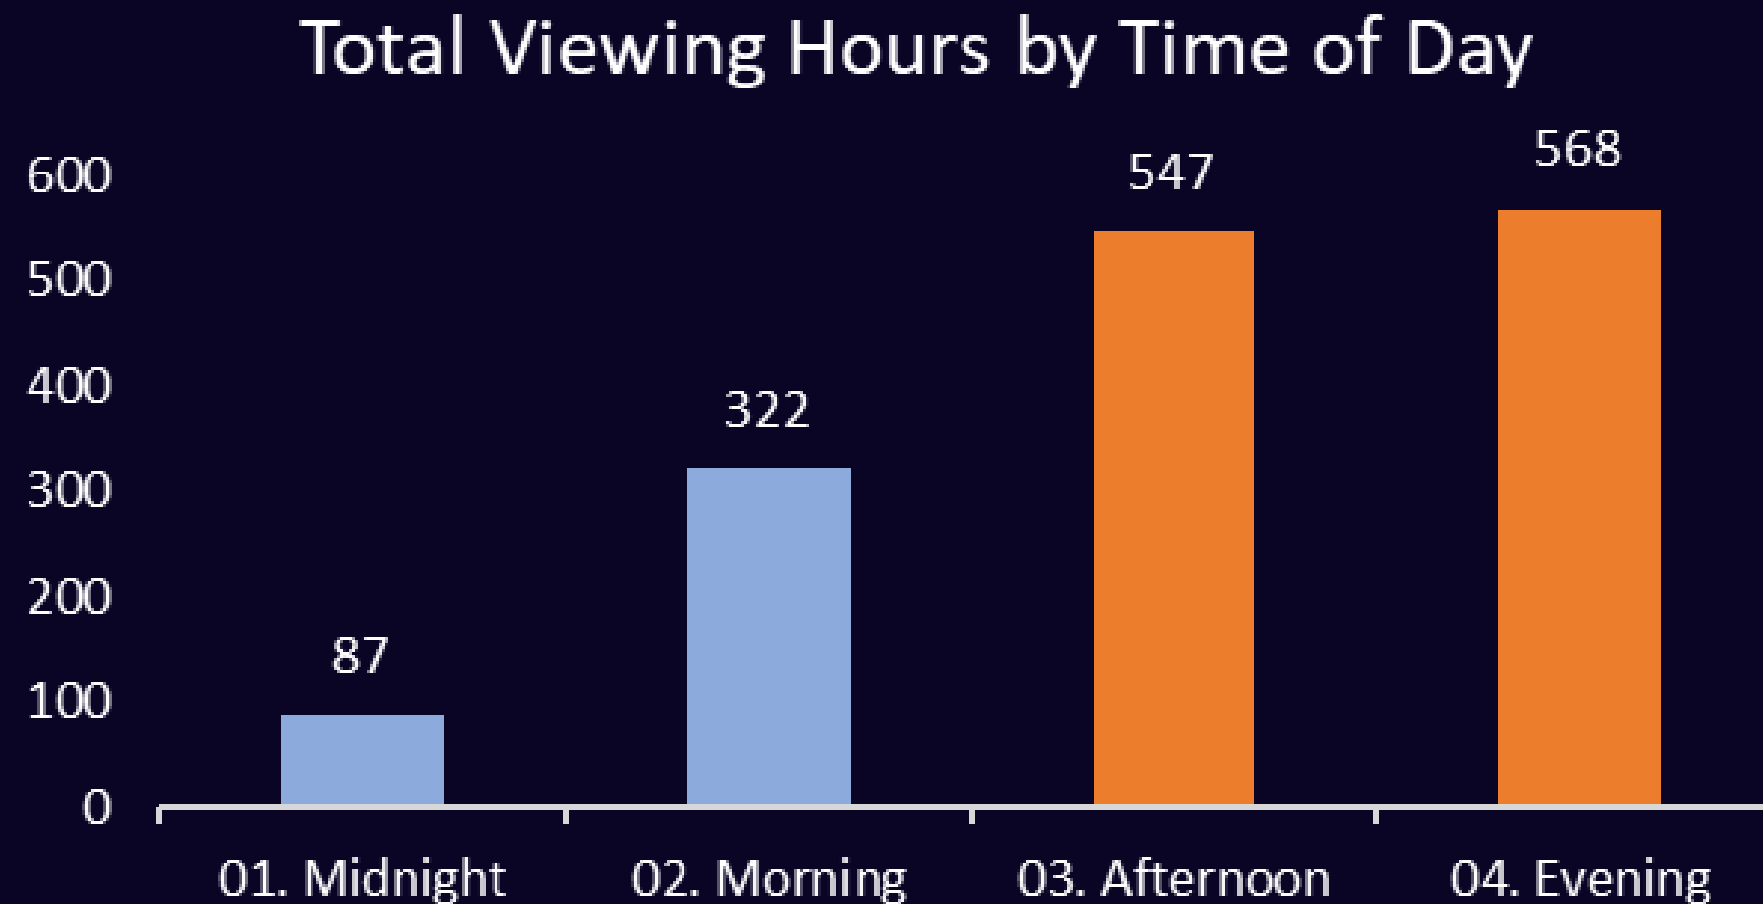

INSIGHT

Saturday has the highest daily consumption at 296 hours; Monday the lowest at 115 hours, roughly 61% lower.

RECOMMENDATION

Prioritise Monday with targeted programming and promotions, while keeping strong schedules for the weekend peak.

WHEN ARE VIEWERS WATCHING?

INSIGHT

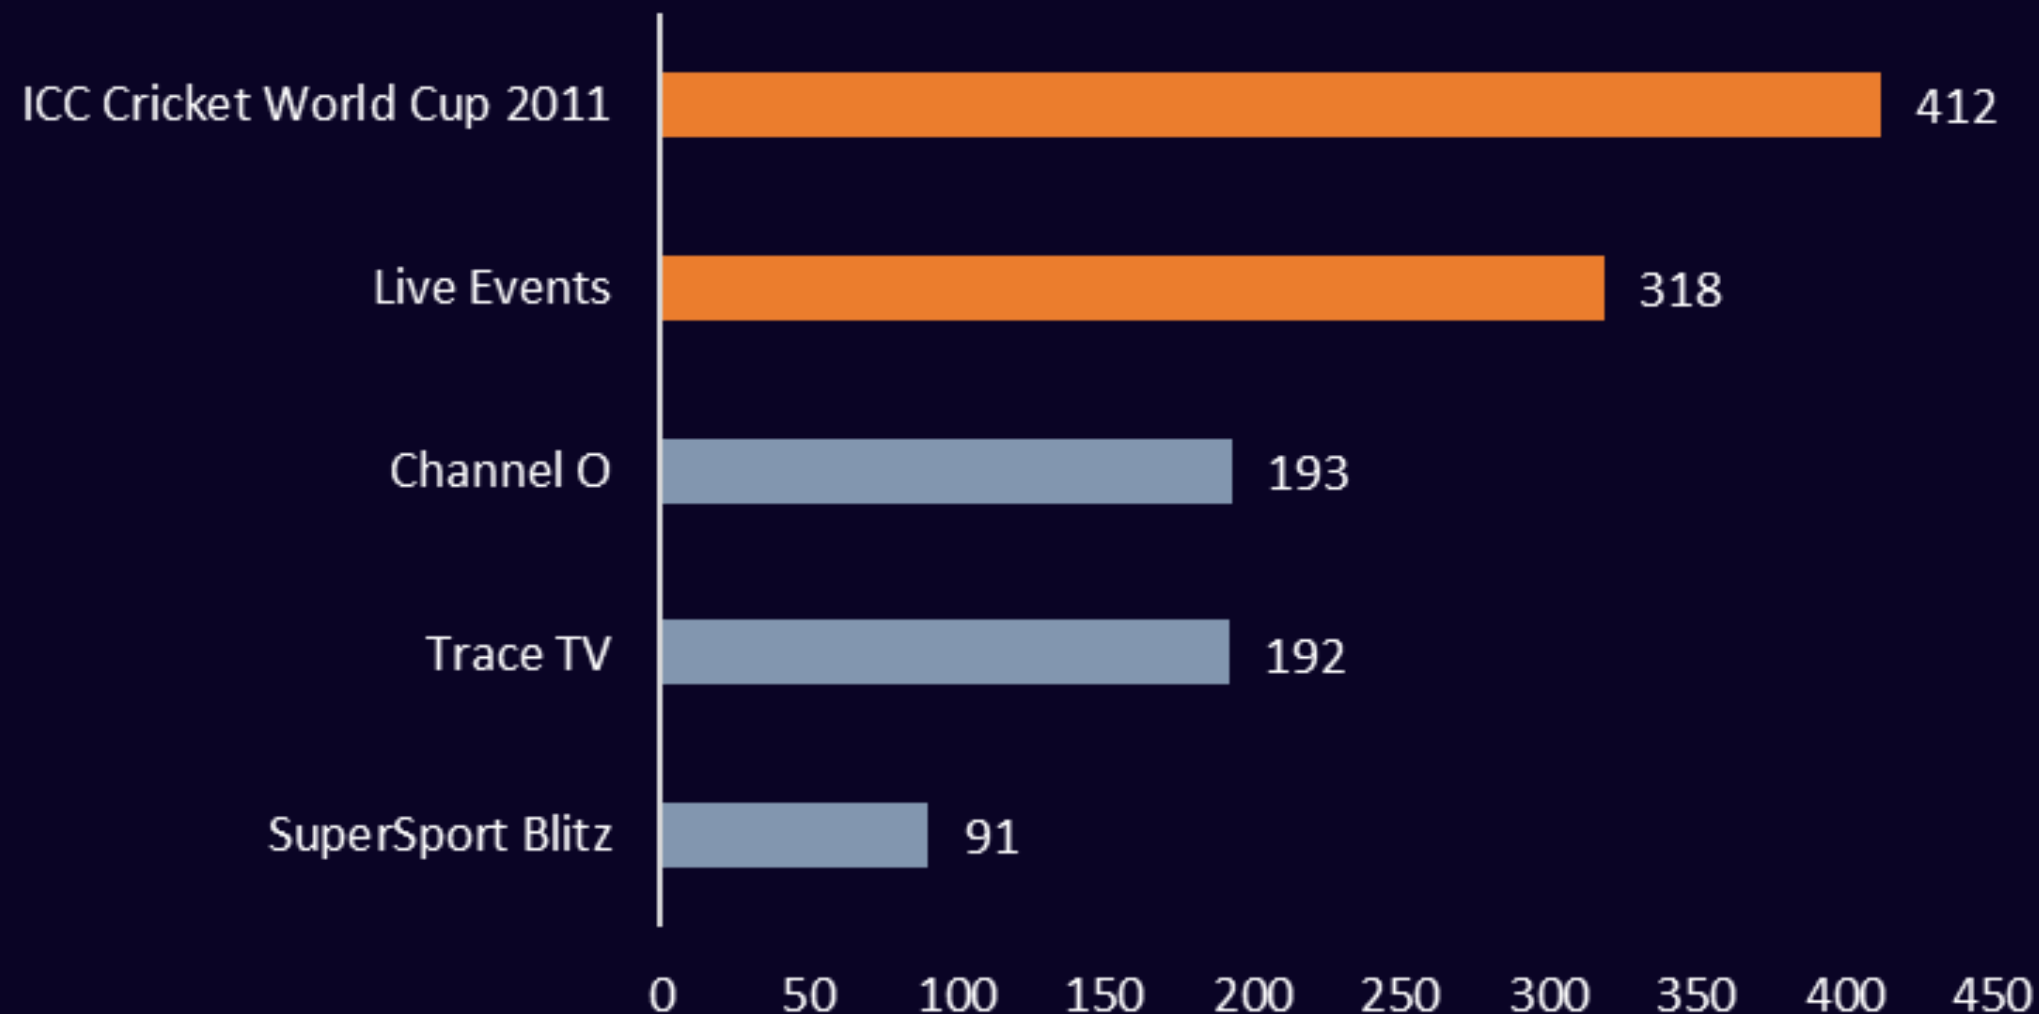

Evening is the strongest period at 568 hours, closely followed by afternoon at 547 hours. Midnight contributes only 87 hours.

RECOMMENDATION

Prioritise high-value programming, promotions and new-content launches in the afternoon and evening.

WHAT CONTENT DRIVES CONSUMPTION?

Top 5 Content by Watch Hours

INSIGHT

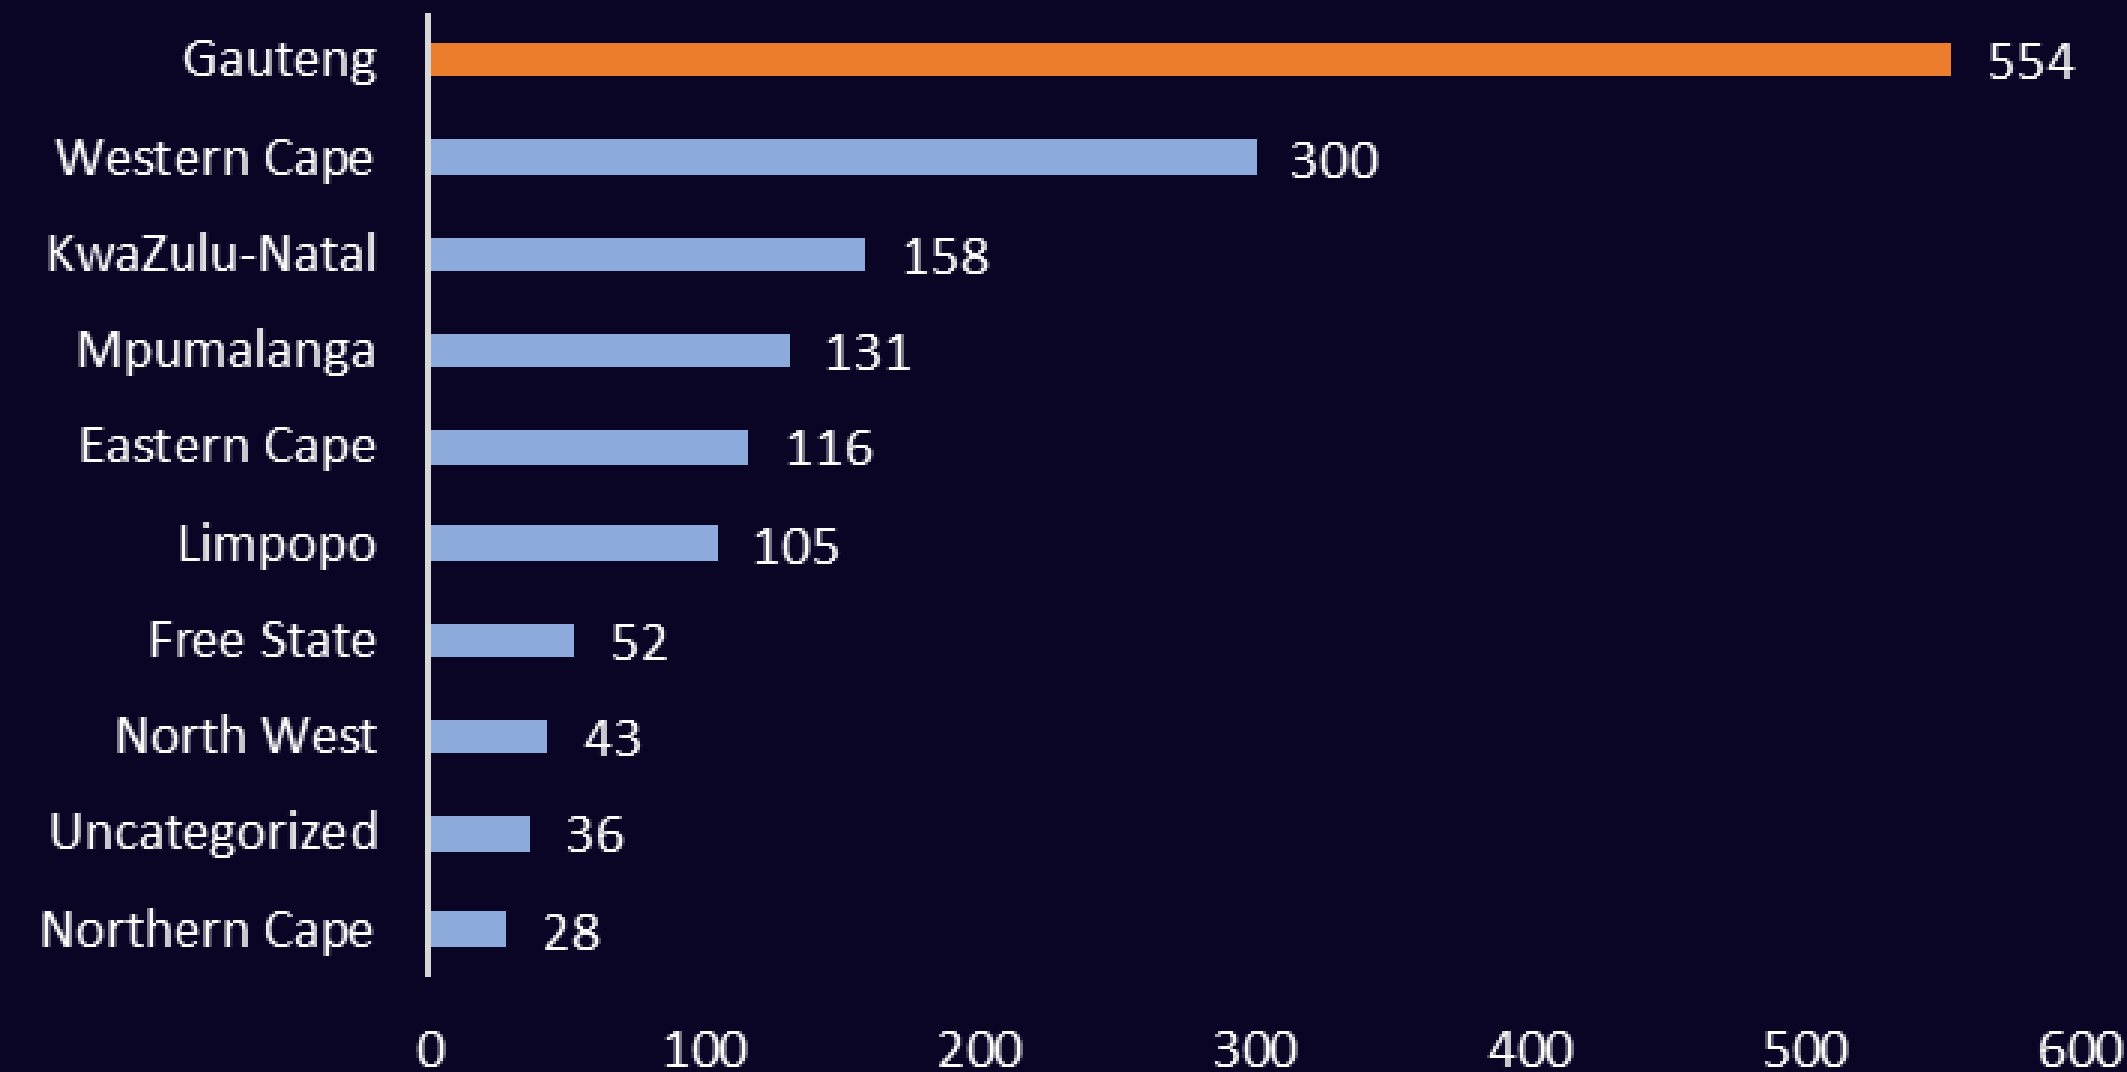

ICC Cricket World Cup 2011 is the strongest consumption driver with 412 watch hours, followed by Live Events at 318 hours. Channel O and Trace TV contribute roughly 193 hours each.

RECOMMENDATION

Prioritise high-performing genres and formats, particularly sports/cricket and live-event programming when planning schedules and campaigns.

WHO IS DRIVING CONSUMPTION?

Watch Time by Region

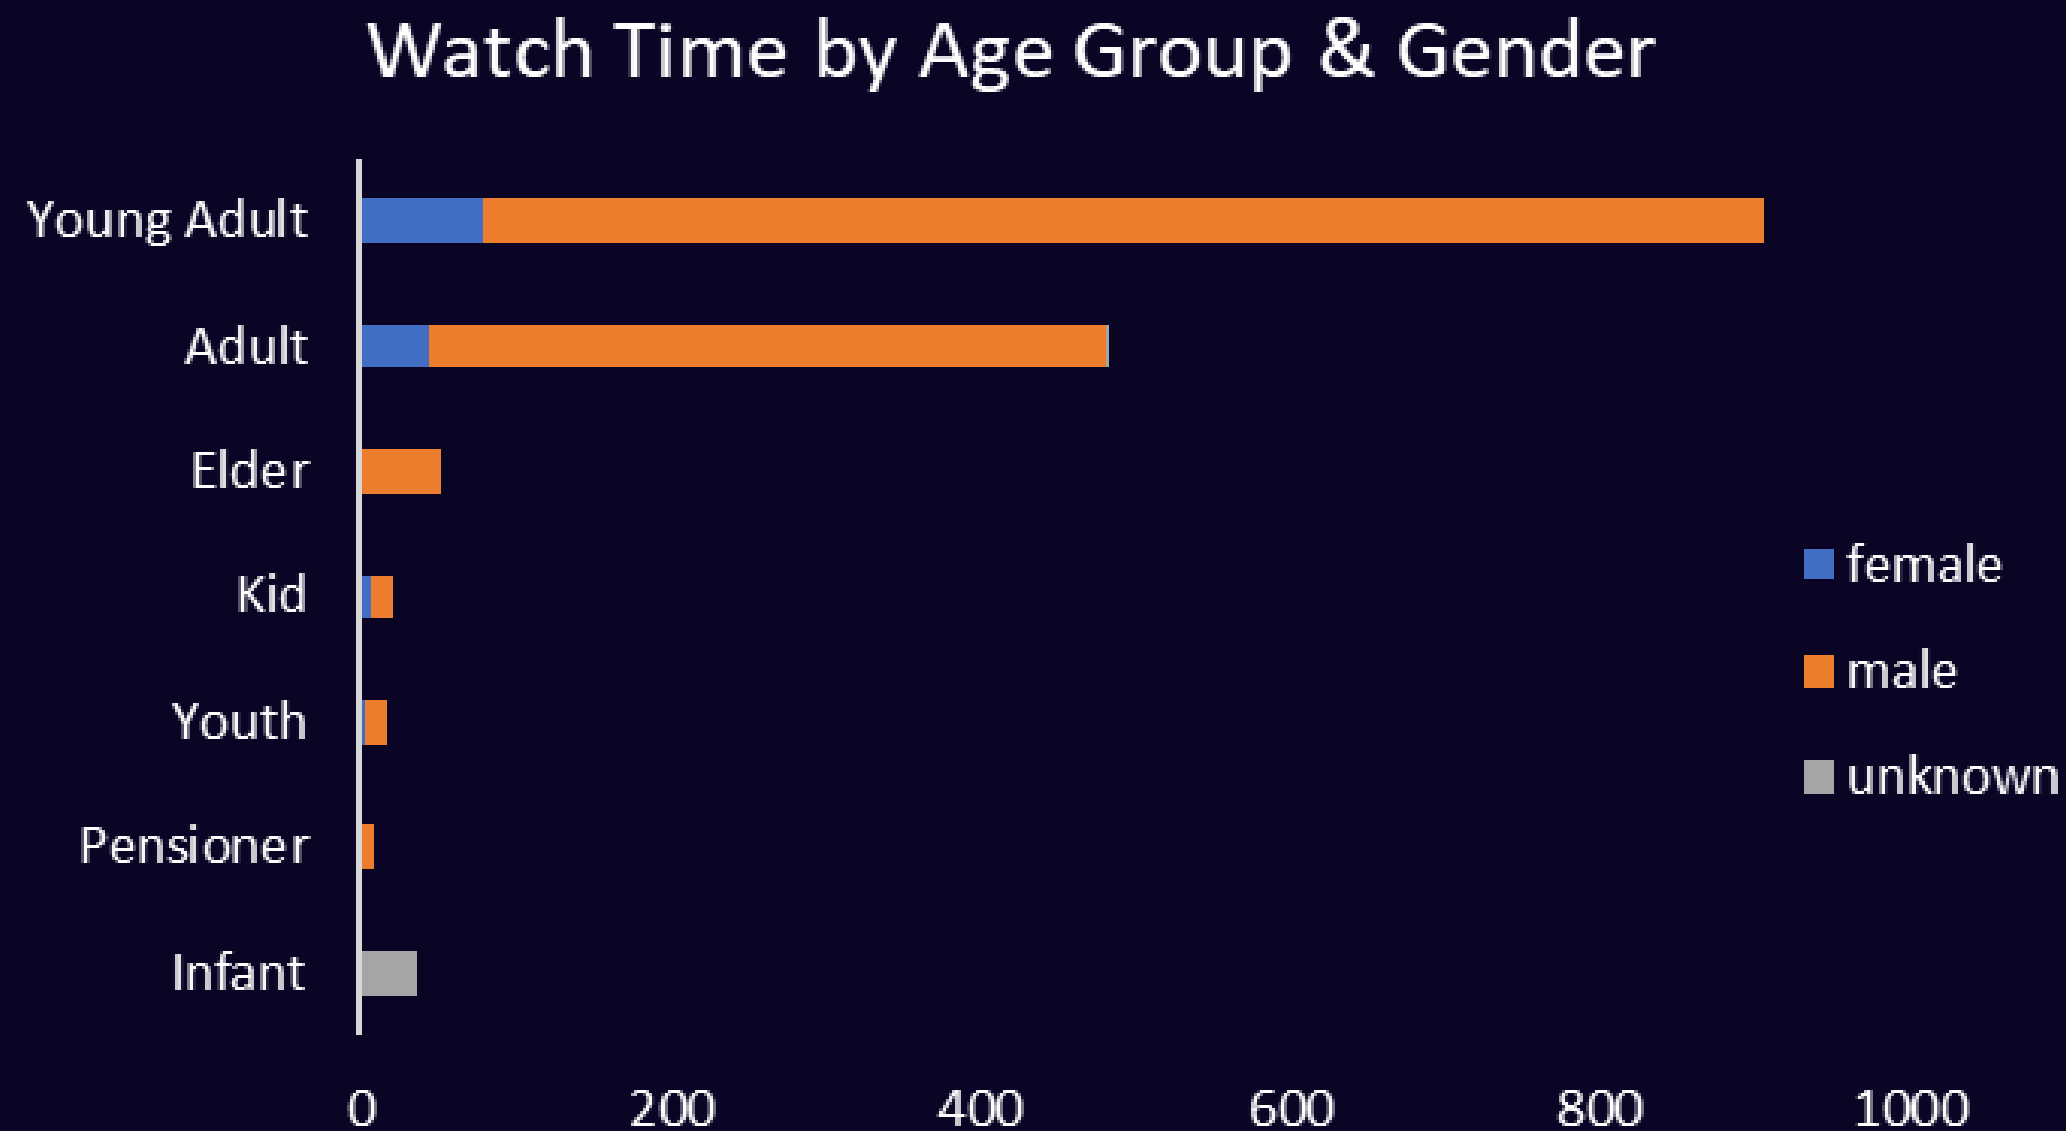

INSIGHT

Gauteng generates the highest watch time at 554 hours, followed by Western Cape at 300 hours.

RECOMMENDATION

Use regional patterns to target local campaigns and investigate lower consumption regions.

WHO IS DRIVING CONSUMPTION?

INSIGHT

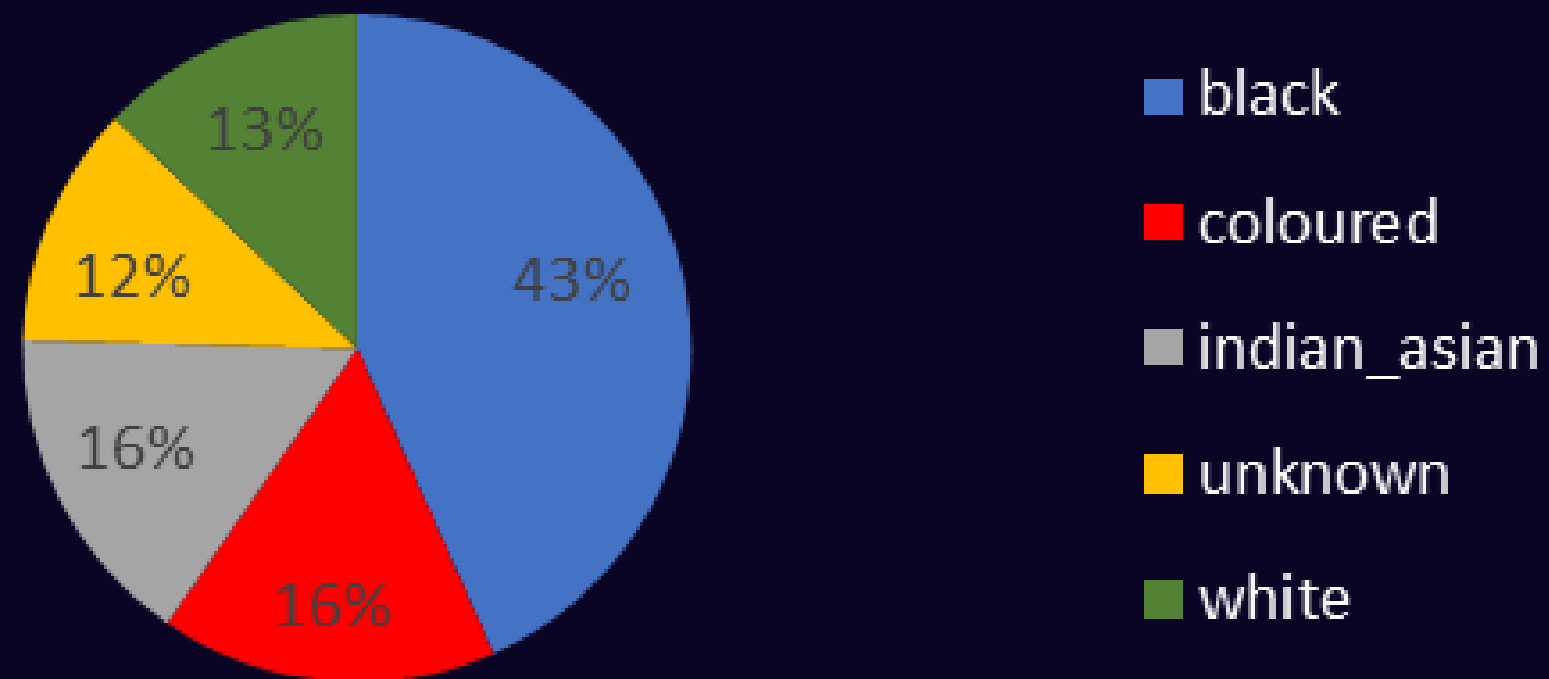

Males account for 87% overall watch time across all age groups with Young having the most watch hours –905 with 91% being males followed by 481 hours of Adults.

RECOMMENDATION

Maintain and expand content aligned to males and Young Adult preferences, while testing targeted campaigns for smaller segments and introducing programming aimed to attract female engagement.

WHO IS DRIVING CONSUMPTION?

Viewing Sessions by Ethnicity

INSIGHT

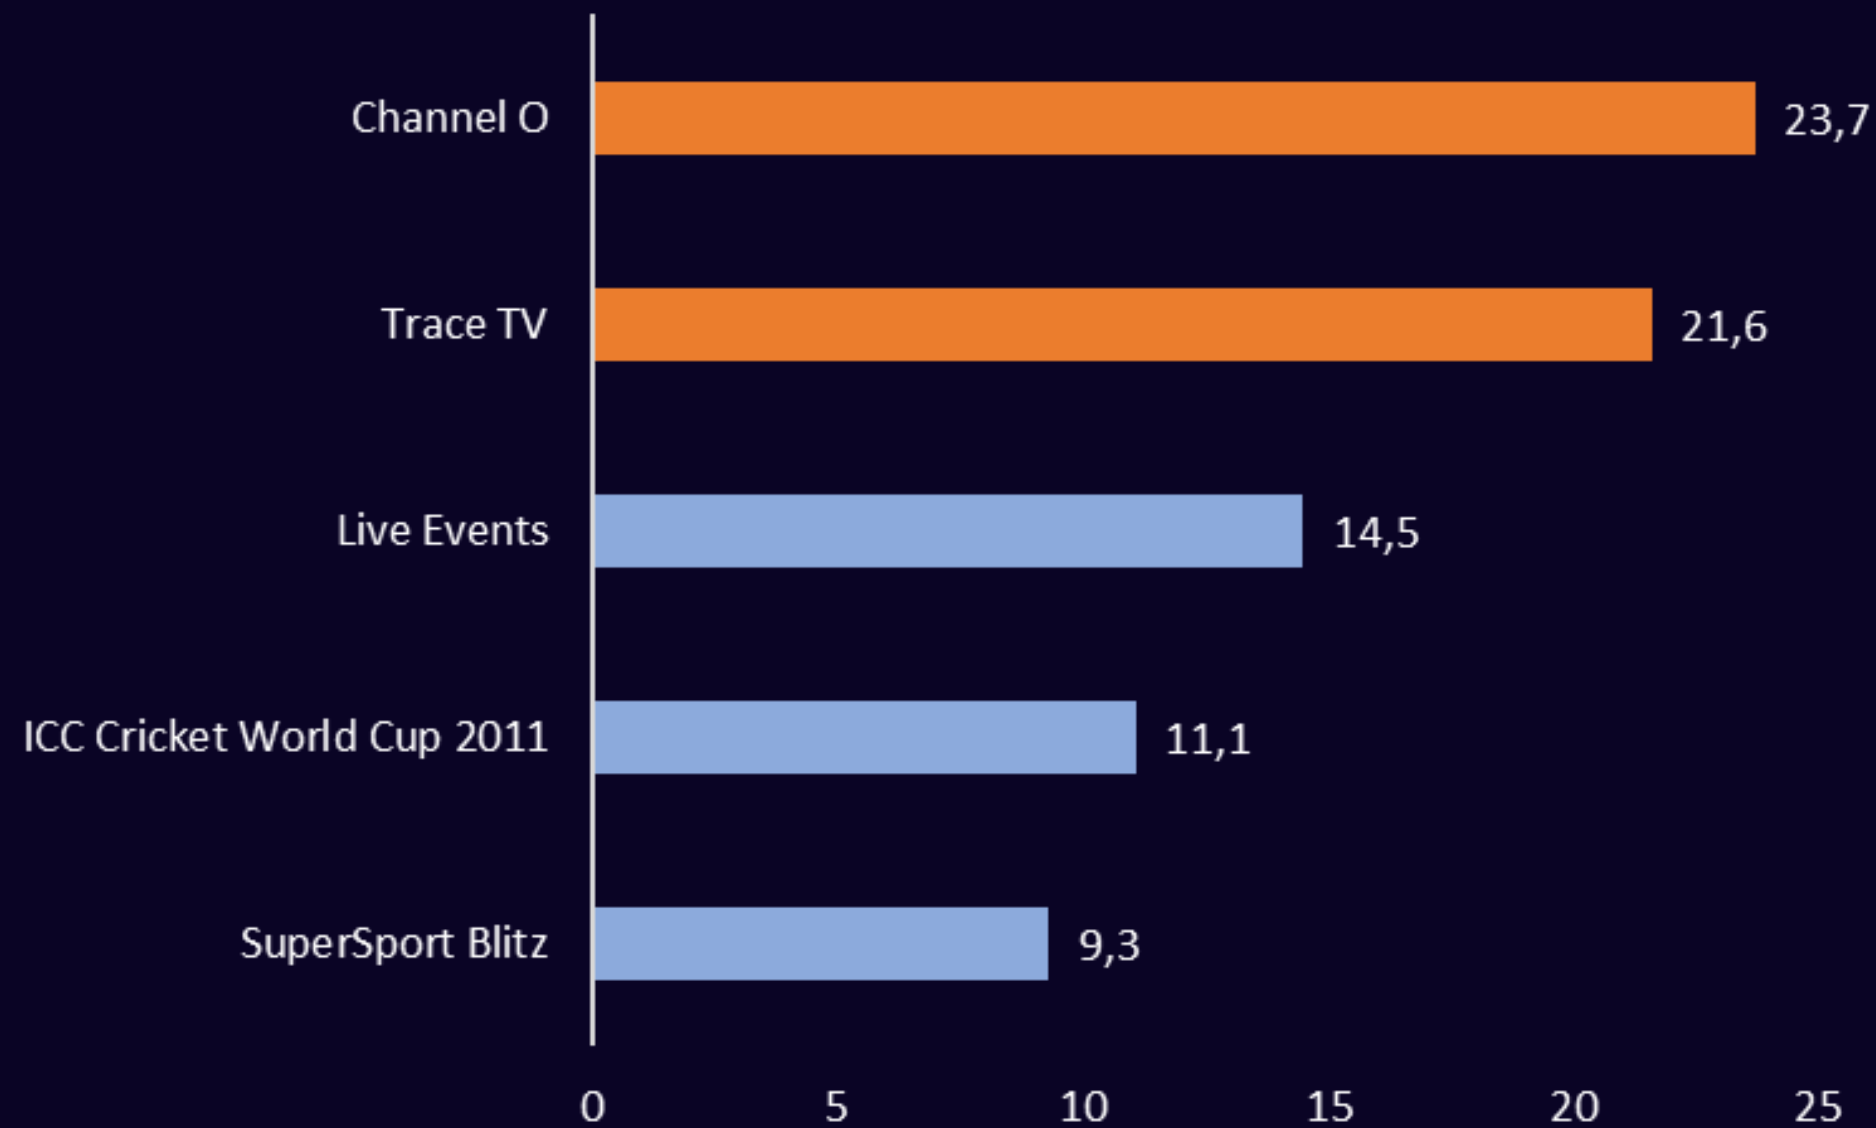

Consumption is not evenly distributed across the different audience groups. Black people contributing the highest viewing sessions, 43%, followed by Colored and Indians contributing 16% while other races contribute the least.

RECOMMENDATION

Develop targeted content and promotions for lower-consuming groups, while keeping existing highly engaged audiences

MONDAY RECOVERY OPPORTUNITY

Top 5 Monday Content by Watch Hours

115 hrs

Monday Daily Watch Time
(Lowest of the Week)

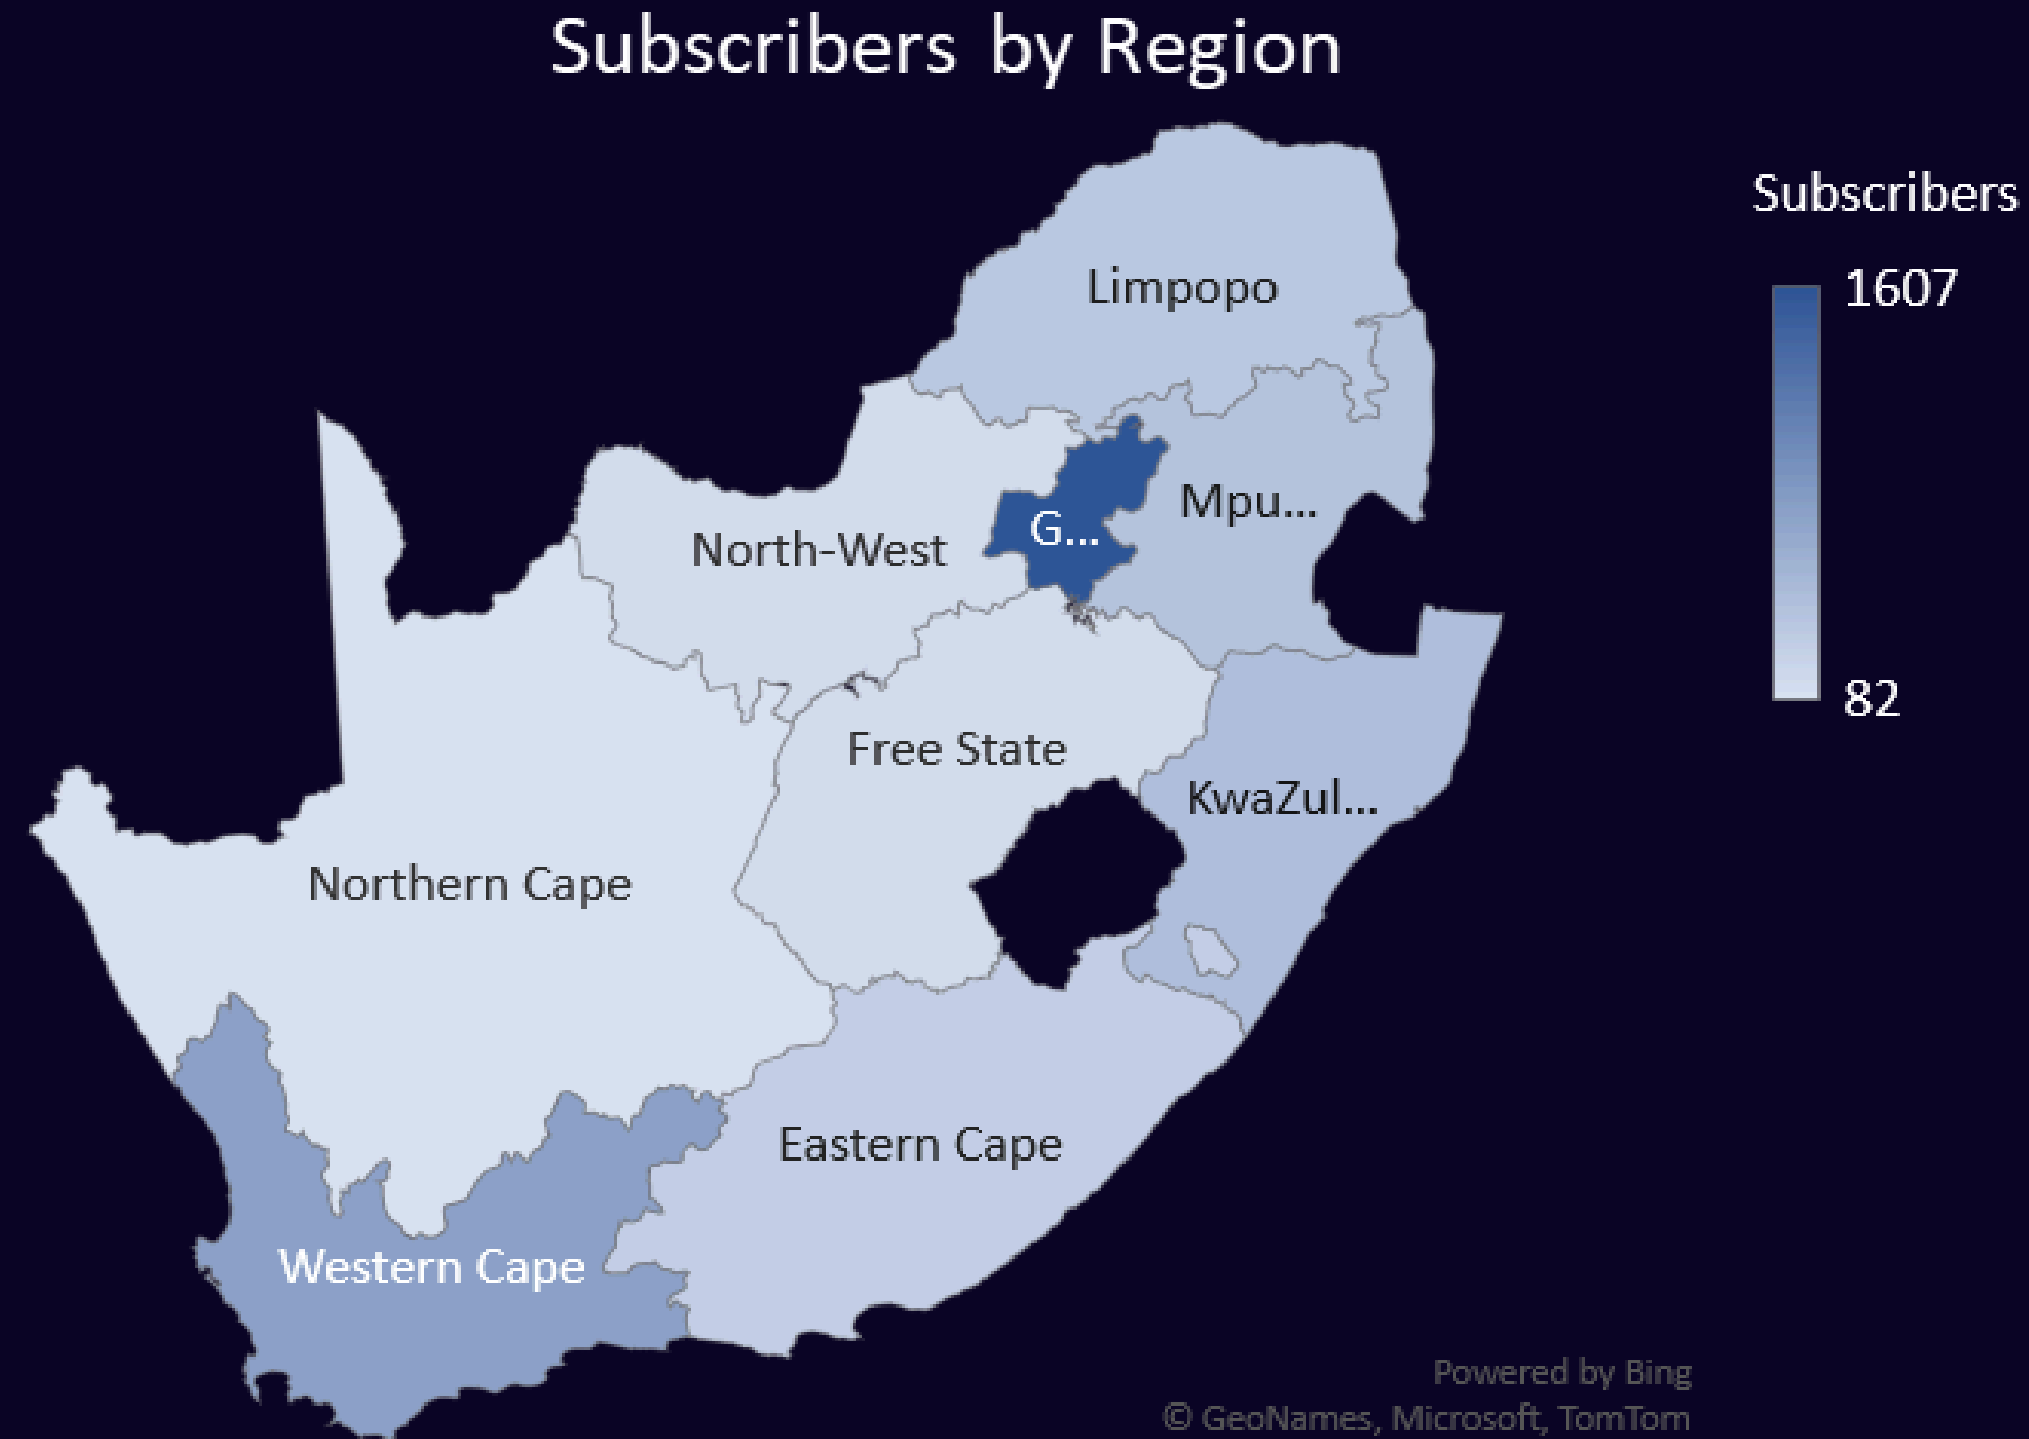

INSIGHT

Despite the lowest average daily consumption, Channel O and Trace TV generate the strongest Monday viewing at 23.7 and 21.6 watch hours respectively.

RECOMMENDATION

Test a Monday programming strategy that promotes content with stronger Monday engagement, such as Channel O, Trace TV, and Live Events.

WHERE IS THE SUBSCRIBER BASE?

INSIGHT

Gauteng has the largest subscriber base with 1,607 subscribers which is more than twice the 770 subscribers in Western Cape.

RECOMMENDATION

Prioritise Gauteng and Western Cape for retention, referrals and upselling, while exploring opportunities to attract new audiences in other regions.

BRIGHT TV GROWTH STRATEGY

01 Fix the Monday Dip

Develop targeted Monday programming using content that already performs relatively well on Mondays (Channel O, Trace TV and Live Events.)

02 Programme around peak viewing

Concentrate high-value programming and promotion in the afternoon and evening, which generate 547 and 568 watch hours respectively.

03 Target the core audience

Focus acquisition and retention on Young Adults and Adults, who account for 2,521 and 1,346 subscribers respectively as well as males focused content as they account for 3,723 subscribers.

04 Use regional targeting

Prioritise Gauteng and Western Cape (1,607 and 770 subscribers) for retention and referrals, while testing ways to attract new subscribers in regions with lower reach.
